Surgery

- TELEOPHTHALMOLOGY** 
- Real-time Video Conference
 - Scheduled
 - On-call
- Diabetic Retinopathy Screening

BOOK A CONSULTATION

Telehealth allows us to communicate with a patient and manage medical problems via the internet and telecommunications.

LOV ON CALL NUMBER FOR PRACTITIONERS **08 6102 4556**

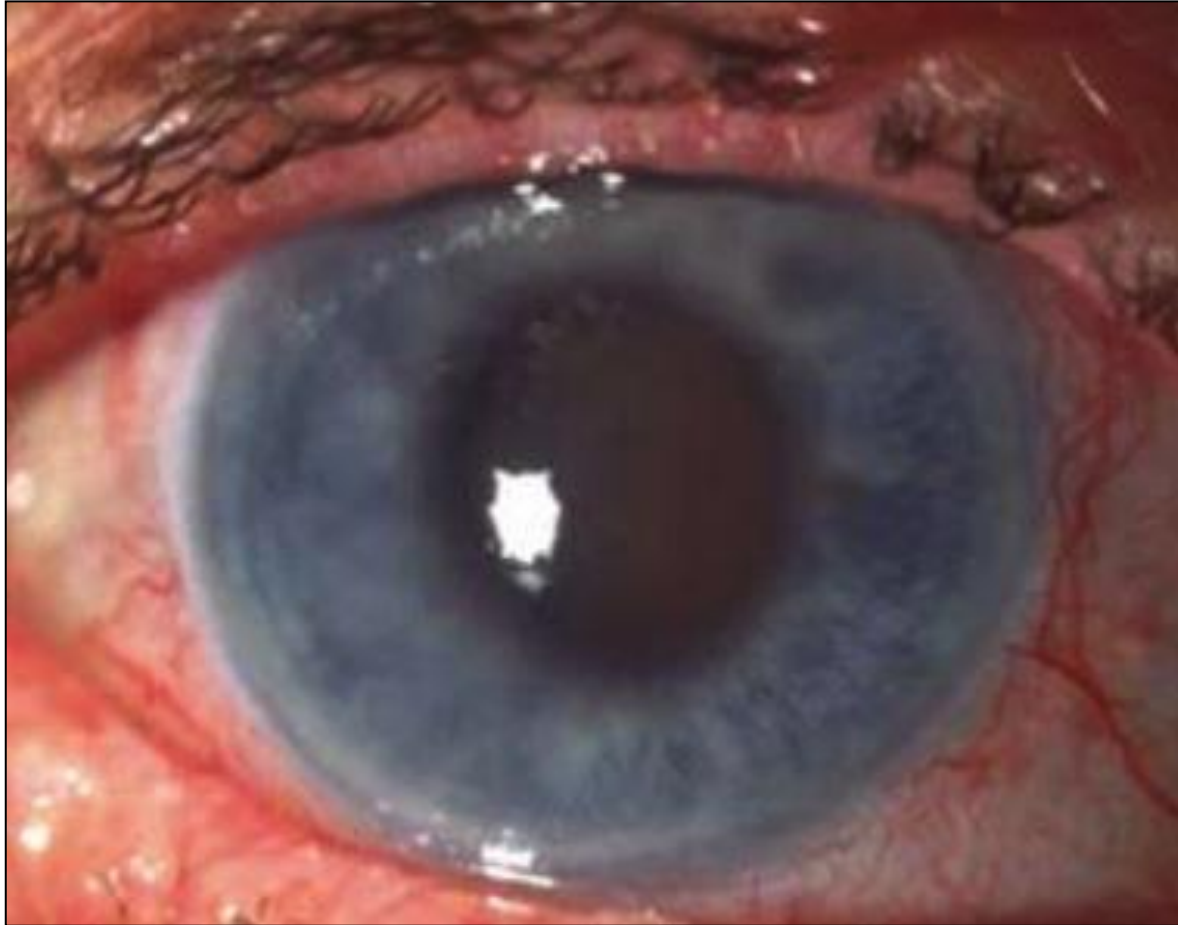

SCHEDULED 4-5PM TELEHEALTH GUIDELINES

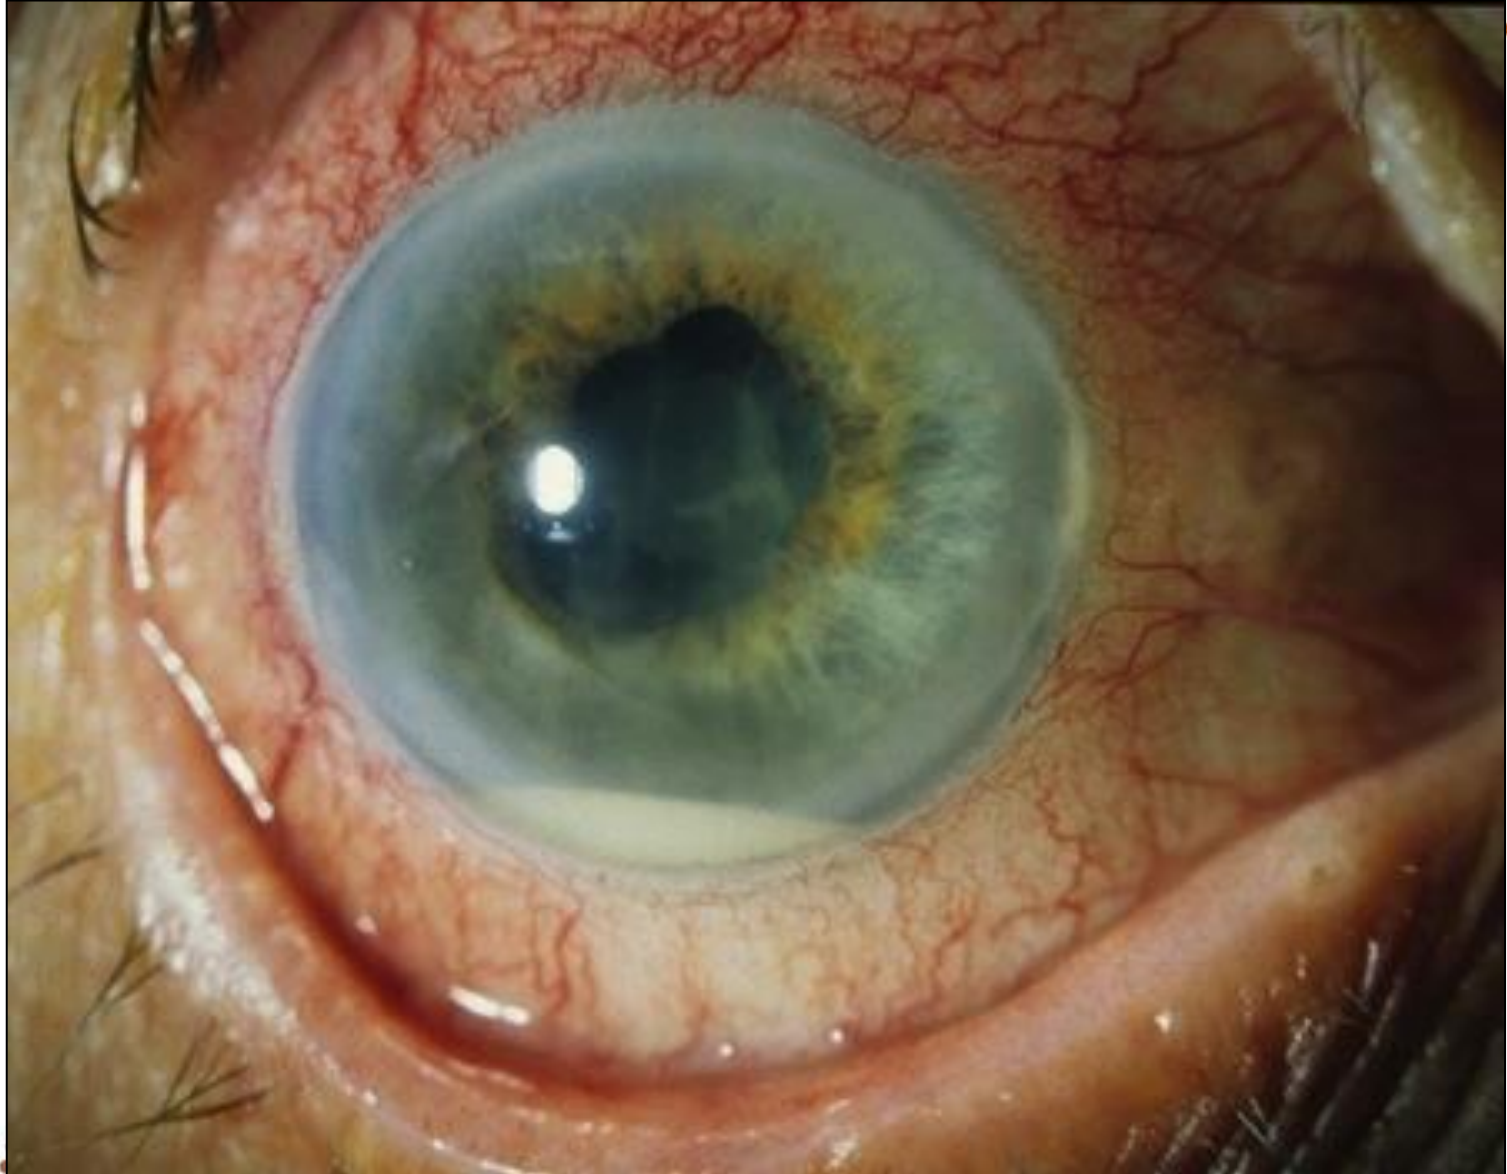

Please note that the provider scheduled telehealth appointments are for chronic conditions or stable diagnoses to expedite management.

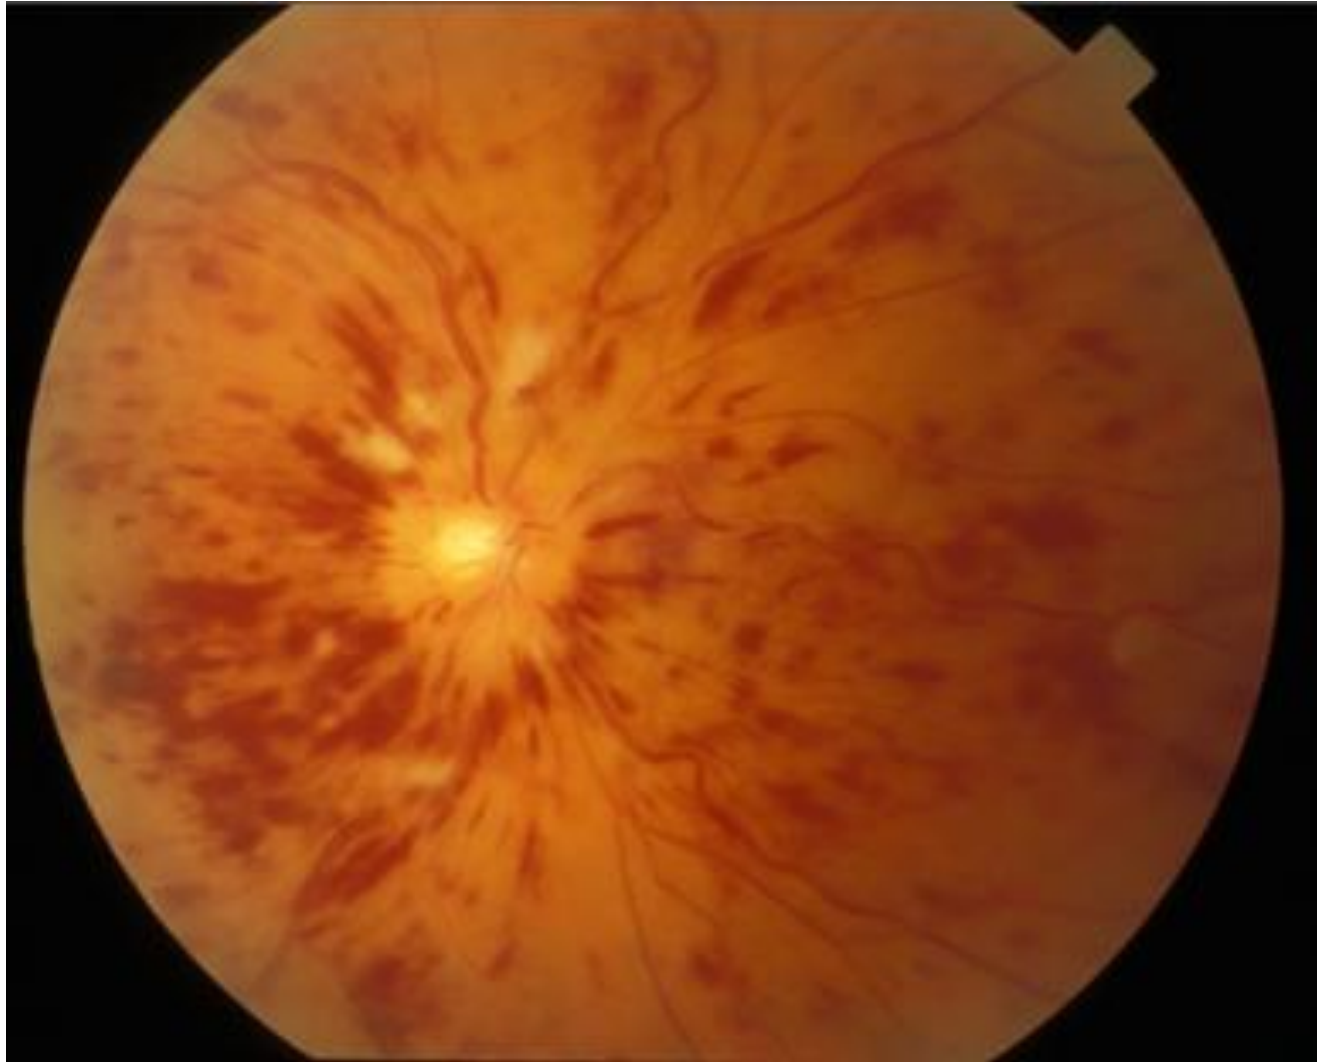

Booked telehealth is often inappropriate for acute presentations or unclear diagnoses due to the delay until review, and the limitations of video call for further assessment.

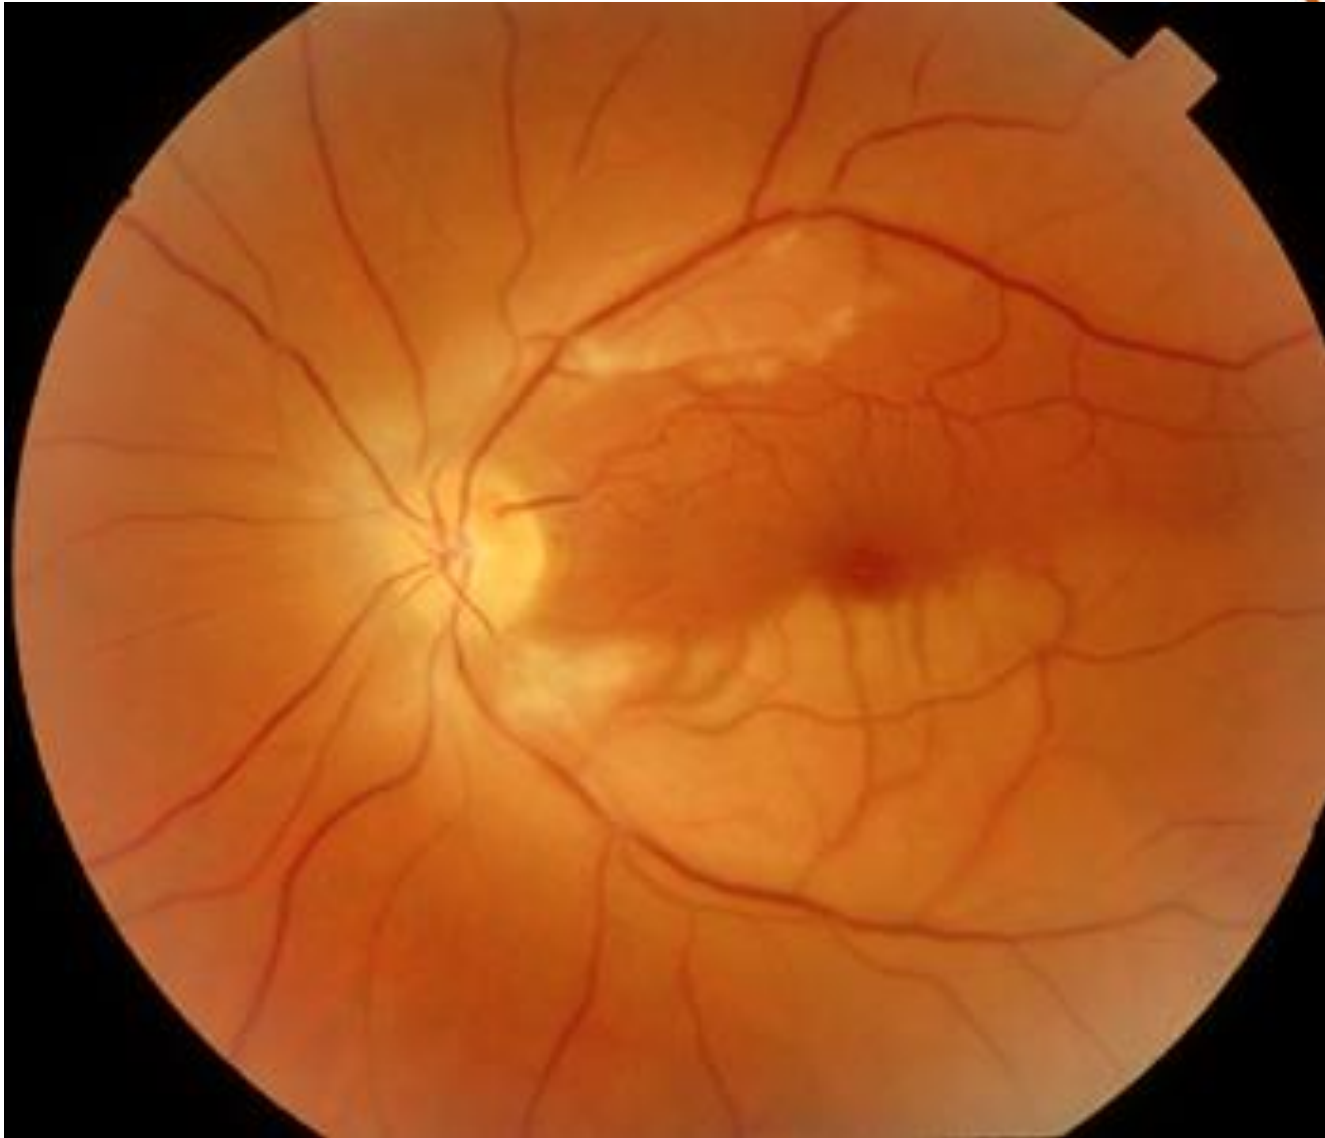

ACUTE REFERRAL GUIDELINES

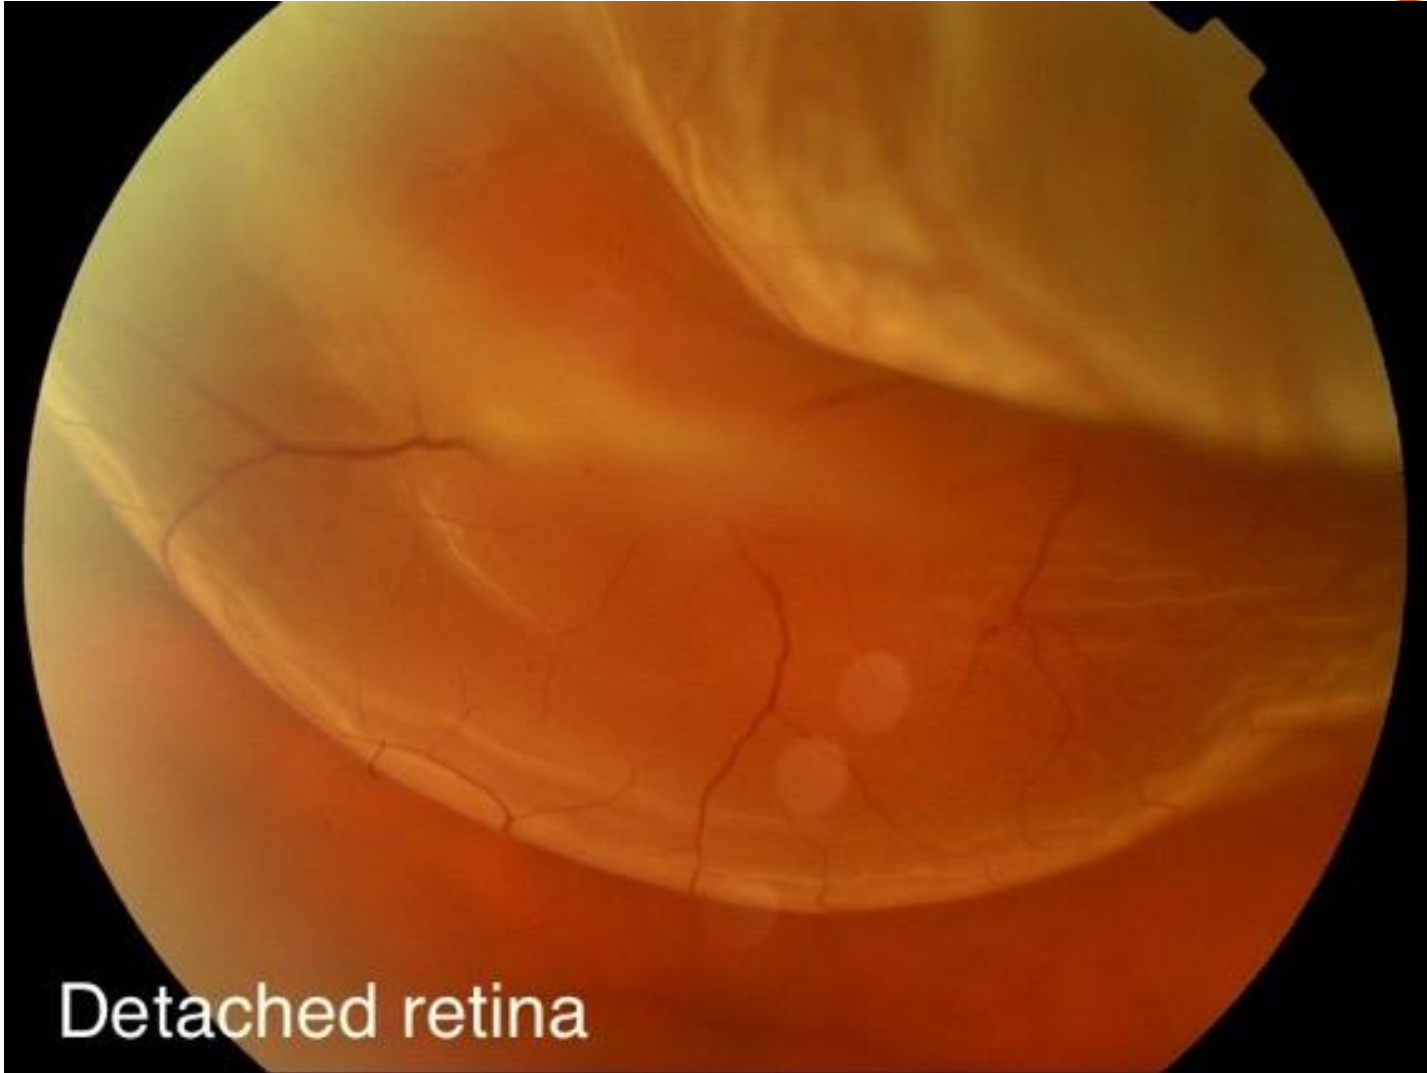

Lions Outback Vision provides an on call service for health practitioners requiring specialist advice on **08 6102 4556** from 0700 – midnight, 7 days a week.

Impact of Telehealth on a new graduate

- Direct contact with ophthalmology
- Learning how to think like an ophthalmologist
- Have you done everything you could possibly do for this patient
- Building confidence in understanding and managing complex cases
- Understanding of the optometry skill set, how to utilise it and how to communicate and triage with ophthalmology and the public health system
- Have a management plan ready, they are your patient
