

DAY 1 - Session 3 - Interactive Polls using Slido with Jack Phu

JACK PHU

Advance preview for your reference only – You will need to answer each when Slido is live during Jack's presentation. Questions only appear when Jack is on that slide.

Poil 1.4 history of trauma to tikely to lead to witch by of Origine nerrogativy Origine nerrogativy Witch 2025 Poils Only Active During increased session. A Purinary optic atrophy B. Secondary optic atrophy B. Report a range to capture B. Secondary optic atrophy B. Report a single, average D. Trans-synaptic retrograde degeneration D. Correct for comeat thysteresis D. Trans-synaptic retrograde degeneration D. Correct for comeat thysteresis D. Trans-synaptic retrograde degeneration D. Correct for comeat thysteresis D. Do not bother - IOP is useless for glaucoma D.
